

Investigation 8:

Climate Change Today

Key Question

Before you begin, first think about this key question.

How is the global climate changing?

Think about what you have learned about climate change. Do you think that the world's climate is changing? If so, what are the prospects for the future? What will the climate be like for you, your children, and your grandchildren?

Share your ideas with your classmates. Record your thoughts in your journal.

Materials Needed

For this investigation, your group will need:

- your weather data
- weather data for your area for the past 30 years
- resources on global-climate change (books, CD-ROMs, Internet access, etc.)
- presentation materials (poster board, markers, etc.)

Investigate

1. Pull together all the weather data and climate information that you have collected over the course of the module.
